Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. The application has been amended as follows:

Claim 9, Line 1, change "(original)" to read --(Currently amended)--.

2. Applicant's arguments, see remarks, page 8, filed 8-9-04, with respect to selecting an initial configuration of claims 1 and 11 and object configuration of claim 9 have been fully considered and are persuasive. The rejection of claims 1, 9 and 11 have been withdrawn.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: claims 1-9 and 11-18 are allowed because, the prior art of record Cham et al. (US 6,353,679) or Crabtree et al. (US 6,295,367) does not teach *selecting* an initial configuration comprising a plurality of objects, wherein the initial configuration represents an initial relationship among the objects in said plurality of objects of claims 1 and 11 and

hierarchical sampling of frames of video, wherein said sampling is performed in an *object configuration* and *individual object states*, said object configuration representing a relationship among a plurality of objects within a scene for tracking objects of claim 9, combined with other features and elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
